Ohio Wesleyan University

Stakeholders

Definition

Stakeholder Defined:

- Can be an individual, group, or organization
- Is affected by what you do;
- Has an interest in the successful or unsuccessful outcome of what you do
- Has power or influence over what you do;
- Can be inside or outside of your institution

Identifying Your Stakeholders

Review your mission

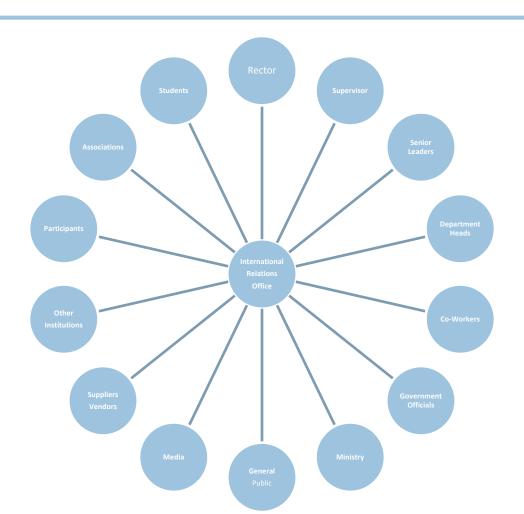

Inventory current programs & services that you provide or aspire to provide

Brainstorm connected stakeholders

- Individuals or organizations
- Internal or external
- Providers or consumers
- Primary or secondary

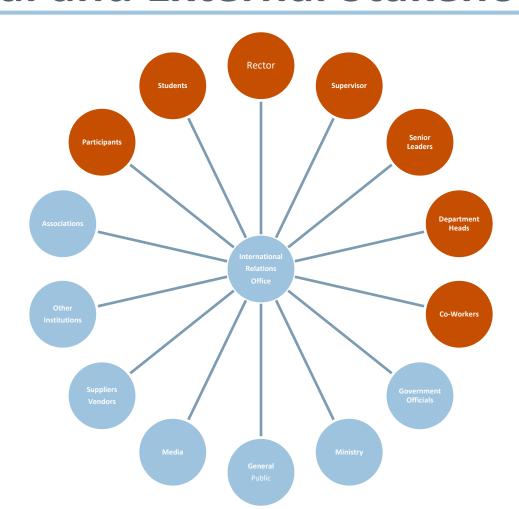

Who are your Potential Stakeholders?

Who are your Potential Internal and External Stakeholders?

Stakeholder Management Process

Inventory stakeholders

Catalogue stakeholders

Analyze influence & interest of stakeholders

Building stakeholder impact

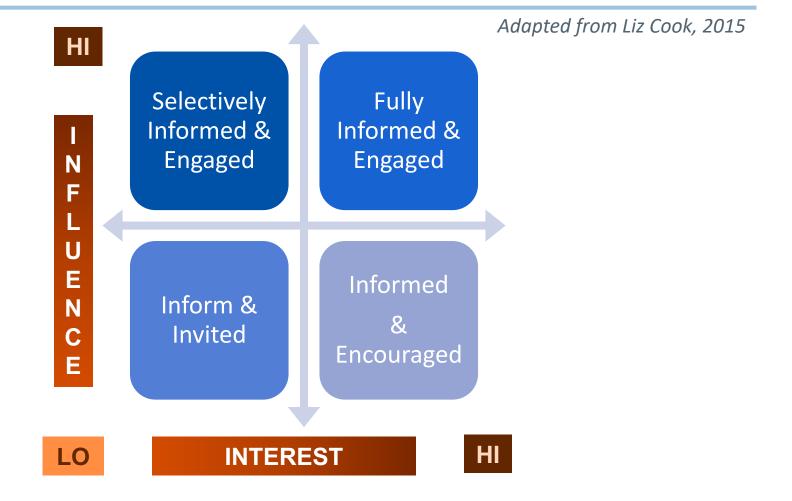

Interest & Influence: A Distinction

Interest is something that concerns, involves, draws the attention of, or arouses the curiosity of a stakeholder.

Influence is the capacity or power of stakeholders to be a compelling force on or produce effects on the actions, behavior, or opinions of others.

Stakeholder Engagement Continuum

Adapted from Liz Cook, 2015

Desirable Shift

Building Stakeholder Impact

Prepare stakeholders with the knowledge, skills, and connections necessary to translate new ideas into innovations

Collaborate with diverse stakeholders to explore issues, options, and creative approaches that may lead to innovations.

Translate important new ideas into innovations that improve society more expediently and at an increased volume.

Align people, incentives, resources, and processes to strengthen an intentional culture of innovation.

Catalyze innovation by facilitating the work of stakeholders as they put important ideas to use for a better world.

Know Your Stakeholder & Yourself

For Stakeholders:

Who are they?

What do they do?

Why do they matter?

How can they help us?

For Yourself:

Who are we?

What do we do?

Why do we matter?

How can we help you?
